TASER WATCH

Taser Watch captures certain crucial information in the case of a threat to the wearer, such as the wearer's position, as well as some information such as the wearer's name, national identification number, and several vital indications. His request will be sent to the closest police station from its current position, along with certain other characteristics such as vital signs and the person's identity.

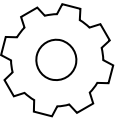

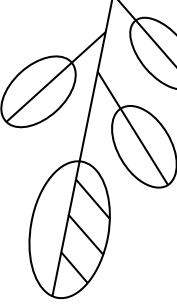

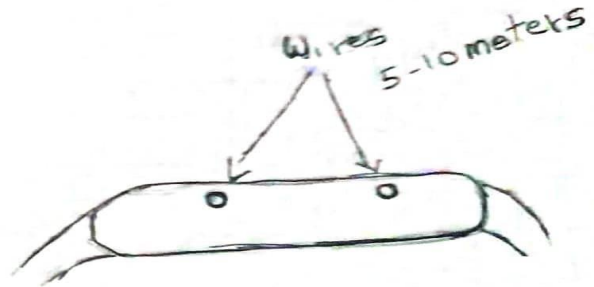

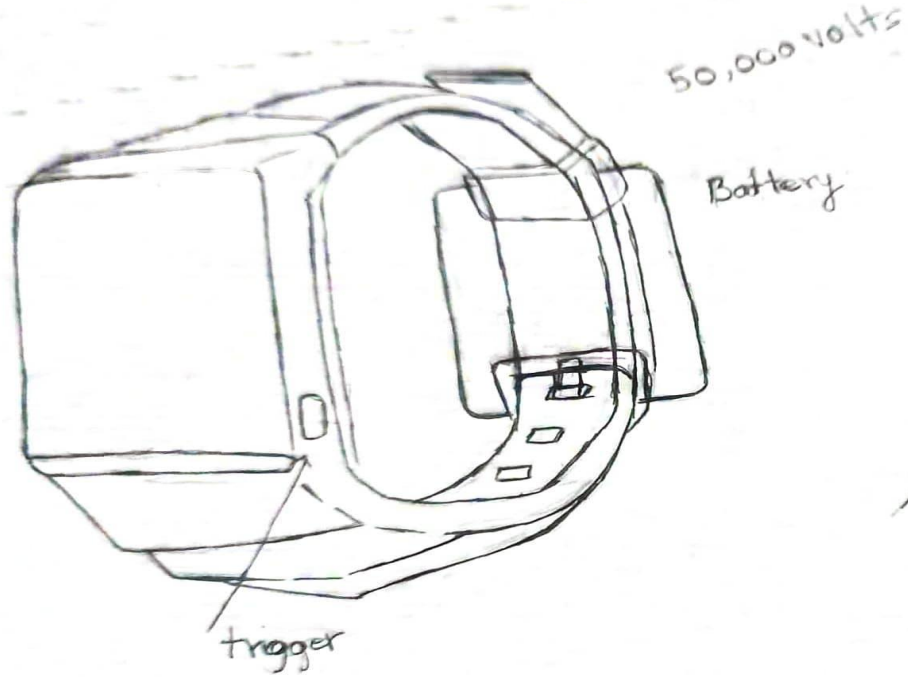

TASER WATCH

- Helps and ensures that it reaches the right people to get a quick response
- Respond to his moves by just clicking the button on the watch
- Clicking the button would notify the police
- Using taser watch for an impending attack that may take place.

TASER WATCH PRETOTYPE
